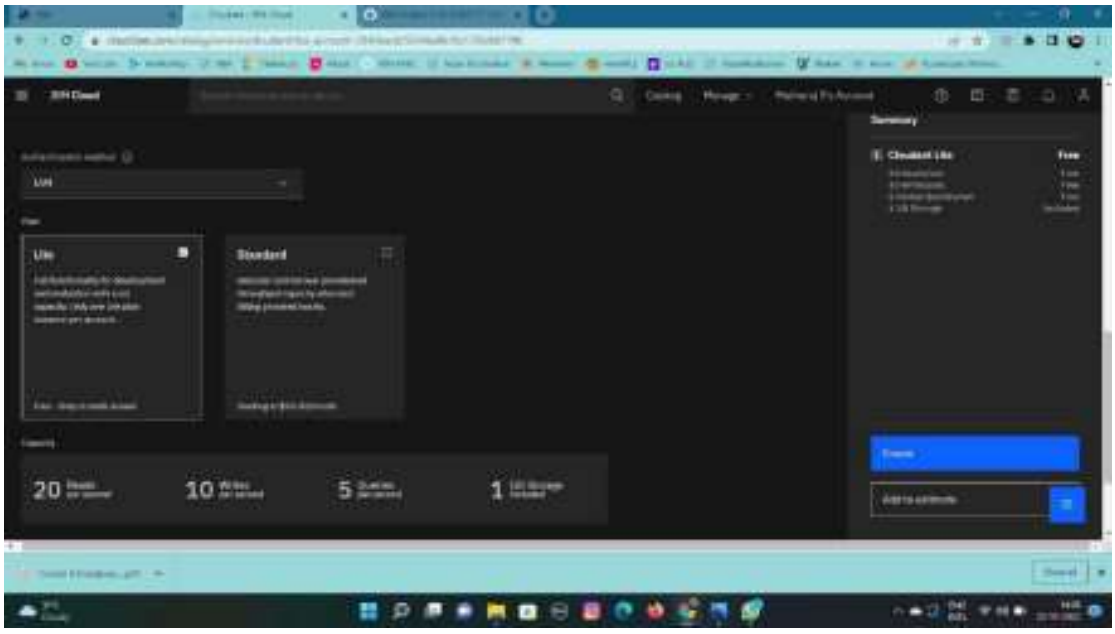
Create A Database In Cloudant DB

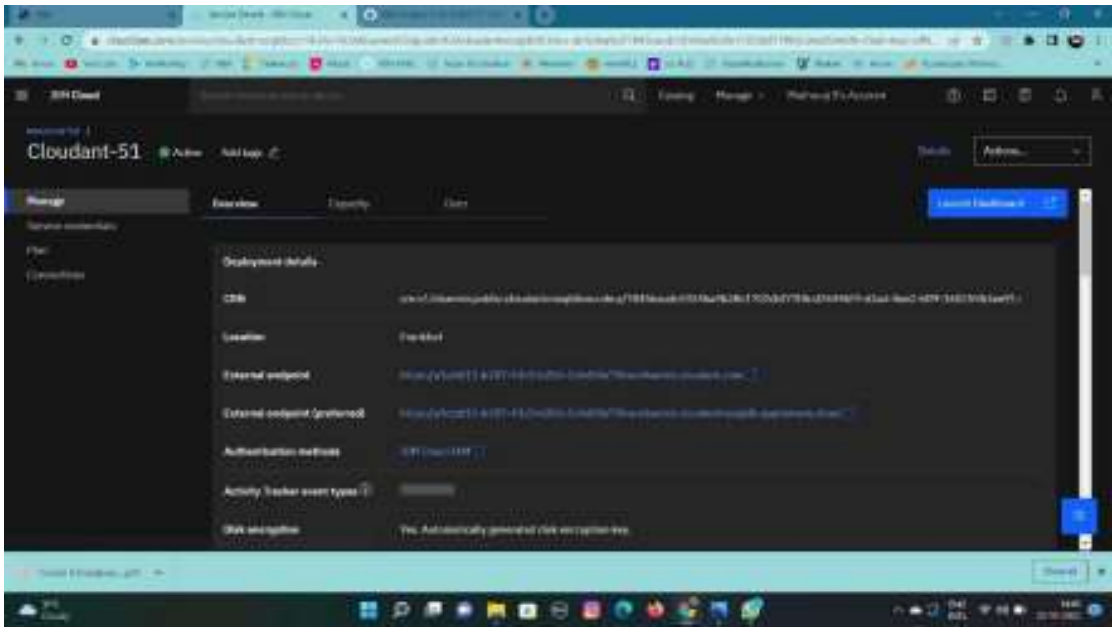
Aim: To create a database in Cloudant DB to store location data.

Steps followed:

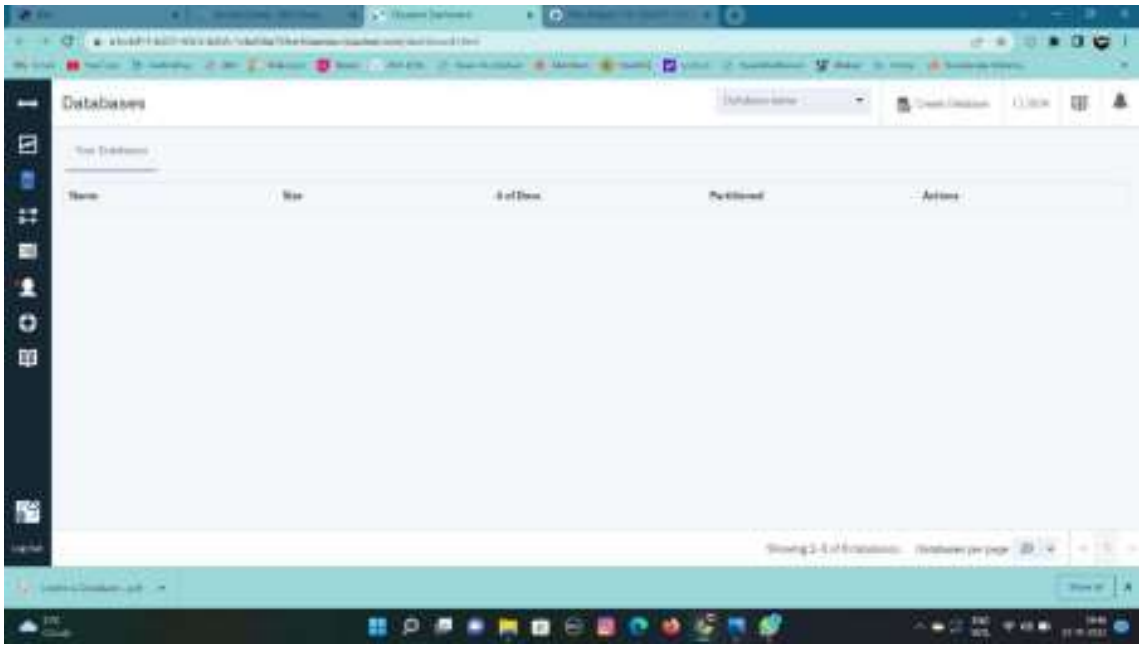
- Logged in to IBM Cloud account
- Navigated to `./resources`
- Clicked on the “Create Resource +” button
- Searched for “Cloudant”
- Chose the “Lite Version” and clicked on “Create”



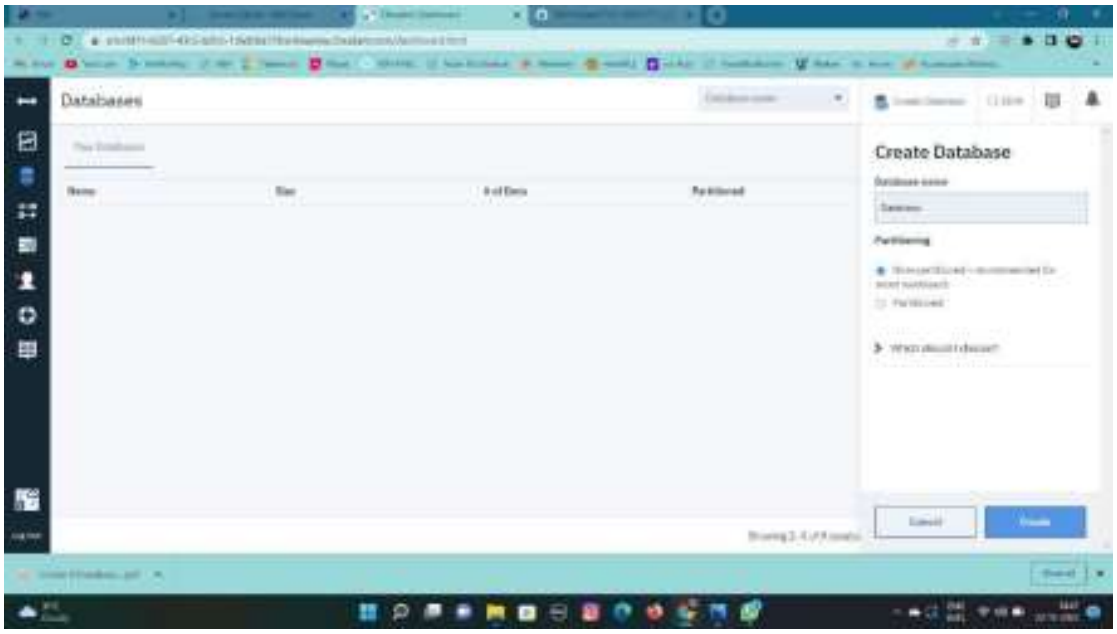
- The Cloudant database resource was created successfully



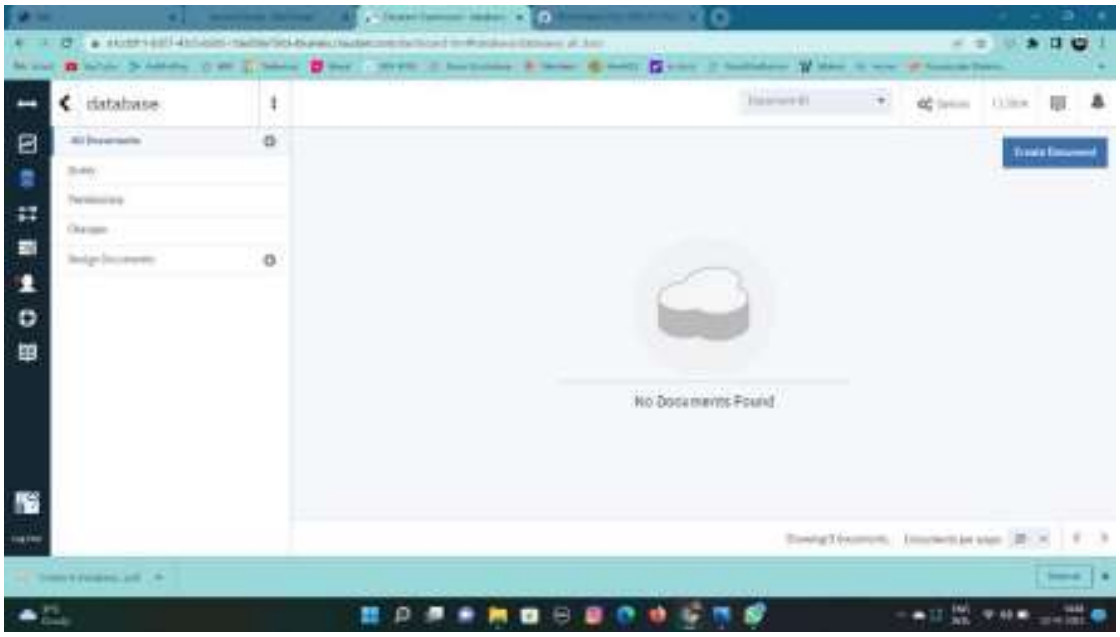
● Clicked on Launch Dashboard



● Clicked on “Create Database”. Entered “meowman” as the database name and the “Non-partitioned” option



- The database “meowman” was created successfully



Result:

A database to store the location data was created successfully on Cloudant DB
